Excluded Activities

- Biomedical research outside established Foundation programs
- Basic research in academic disciplines
- Ticket sales, festivals, celebrations, and similar activities
- Attendance at or travel to conferences or for costs of conference speakers, programs, or activities (except for conferences directly related to the Foundation's grantmaking initiatives)
- Travel, except as travel is related to other McKnight support of an organization

Geographic Focus

The Foundation's primary geographic focus is the state of Minnesota. Generally, Arts & Culture, and Vibrant & Equitable Communities grants are made only within the state. Most of the Foundation's grantmaking in support of human services in greater Minnesota is accomplished through re-granting of Foundation funds by the six Minnesota Initiative Funds, which were established by the Foundation in 1986. Special programs initiated by the Foundation may have different geographic limitations.

Types of Organizations the Foundation Supports

Eligible applicants must be classified by the Internal Revenue Service as tax-exempt, charitable organizations that are not private foundations. Except in specific circumstances, proposals from domestic organizations will be considered only when the organizations have received a favorable determination from the Internal Revenue Service regarding their tax-exempt status. We also fund fiscal sponsors and exercise expenditure responsibility as necessary.

Units of government are eligible to apply for funding for special projects that complement customary public functions.

Churches and religious organizations may apply for support for activities that benefit the larger community, but not for those having a sectarian religious purpose.

Grants are not made directly to individuals except to the recipient of the Distinguished Artist Award. This annual award is based upon nominations, and individuals may not apply for them.

Priorities

Requests that fall within the Foundation's current priorities are more likely to be considered than are others. Topics outside the current priorities are of much less interest to the Foundation.

Each of the Foundation's program areas has specific goals, eligibility requirements, and application procedures. Detailed descriptions are available on the Foundation's website.

The Foundation's international grantmaking is limited to projects that increase food security in

developing countries.

Except in highly unusual circumstances, the Foundation's international grantmaking is directed towards development projects rather than emergency relief efforts.

The Foundation administers the McKnight Endowment Fund for Neuroscience, McKnight's oldest research program. This program dates to 1977 and is a direct legacy of founder William L. McKnight, who was interested in the biology of the brain, particularly diseases affecting memory. The research program is overseen by the McKnight Endowment Fund for Neuroscience, an independent organization established for this purpose and funded exclusively by the McKnight Foundation. The Endowment Fund has its own board of directors.

The Endowment Fund awards two types of research grants on the basis of recommendations by review committees. Additionally, the Endowment Fund holds an annual conference for current and past awardees to present scientific findings. More information is available on the Foundation's website: <https://www.mcknight.org/programs/the-mcknight-endowment-fund-for-neuroscience/>. The awards are:

- McKnight Scholar Awards: encourage neuroscientists in the early stages of their careers to focus on disorders of learning and memory. Up to ten awards of \$225,000 over three years are made annually.
- McKnight Neurobiology of Brain Disorders Awards: encourage research aimed at translating laboratory discoveries about the brain and nervous system into diagnoses and therapies to improve human health, solving the problems of neurological and psychiatric diseases. Up to four awards of \$300,000 over three years are made annually.
